

## **Health Services**

### **For NOC-Tonkawa and Enid Campus**

A physician is on retainer by the college for performance of certain limited medical services for students at no charge. These include emergency calls and office visits but do not include routine care of chronic illnesses. Students must assume such expenses as medication, lab work, X-rays, and other special costs. Please contact the Student Services office for information regarding the available physician.

Since 18-year old persons are frequently excluded from family health insurance plans, students are provided with information and opportunity to enroll in special student health insurance programs. Your attention is called to the need to investigate and consider these.

## **Health Services**

### **For NOC-Stillwater Campus**

Students on the Stillwater Campus seeking medical attention need to go to the University Health Services facility. If you would like information on the UHS please visit their link at [www.okstate.edu/UHS](http://www.okstate.edu/UHS), or contact them at (405)-744-7665. This website provides information on the facilities hours, location, fees, and other important details.
