The Associate in Applied Science degree program in Business Management provides basic coursework to allow a student to enter the workforce with an entry level management track position. This degree can be completed in conjunction with the Associate in Science degree in Business Administration, allowing a student to graduate from Northern holding two degrees.

The Business Division and this degree program are accredited by the Accreditation Council of Business Schools and Programs (ACBSP). Outstanding Business students are invited to join Kappa Beta Delta, the business honor society recognized by ACBSP.

Career Opportunities

- Basic Entrepreneurial Activities
- Entry-Level Management

NOC evaluates students for placement into either foundational or college-level courses, whichever will lead to the greatest possibility of student success. Academic placement is determined either by A.C.T. test scores or by Accuplacer test scores. These tests are administered in the Testing Center at NOC. Based upon the scores, students may be required to take one or more courses for remediation in English, Math, or Reading, either prior to or concurrent with credit courses. See the NOC testing web page by clicking on the following link: [ACT | Northern Oklahoma College \(http://www.noc.edu/act\)](http://www.noc.edu/act) for placement guidelines.

This is a suggested sequence timeline only. A student may require more than four semesters to complete an Associate in Applied Science degree.

**These program courses are typically offered only once a year. See course descriptions for fall or spring designations and plan accordingly.
