Students should consult the university or college of choice and its catalog curriculum as they make plans on where to transfer. Care should be taken to select the courses that will meet all requirements for both the Associate and Baccalaureate degree programs.</p>
<p>PROGRAM REQUIREMENTS 23</p> <p>This degree program must be completed with the assistance of the graduation advisor to suit the individual student's needs. The credit hour requirements must be selected from the following academic divisions: Agricultural Sciences; Business; Fine Arts; Health, Physical Education, and Recreation; Language Arts; Nursing; Science, Math, and Engineering; and Social Sciences.</p>	<p>This is a suggested sequence timeline only. A student may require more than four semesters to complete this Associate in Science degree.</p>	<p>NOC evaluates students for placement into either foundational or college-level courses, whichever will lead to the greatest possibility of student success. Academic placement is determined either by ACT test scores or by Accuplacer test scores. These tests are administered in the Testing Center at NOC. Based upon the scores, students may be required to take one or more courses for remediation in English, Math, or Reading, either prior to or concurrent with credit courses. See the NOC testing web page at http://www.noc.edu/act for placement guidelines.</p>
<p>TOTAL CREDIT HOURS 60</p>
