This is a suggested sequence timeline only. A student may require more than four semesters to complete this Associate in Science degree.	
**These program courses may be offered only once a year. See course descriptions for fall or spring designations and plan accordingly.	

This Associate in Science degree program prepares students to transfer to a four-year university to pursue the Bachelor's degree in Nursing. Graduates of this program may not be able to transfer directly to a junior year Bachelor's degree in Nursing. Students should consult the catalog from the institution to which they are planning to transfer to carefully select courses that will meet requirements to complete their bachelor's degree. Any student interested in nursing can join the Student Nurses Association, both local and national.

NOC evaluates students for placement into either foundational or college-level courses, whichever will lead to the greatest possibility of student success. Academic placement is determined either by ACT test scores or by Accuplacer test scores. These tests are administered in the Testing Center at NOC. Based upon the scores, students may be required to take one or more courses for remediation in English, Math, or Reading, either prior to or concurrent with credit courses. See the NOC testing web page at <http://www.noc.edu/act> for placement guidelines.
