A student may require more than two semesters to complete the certificate depending upon enrollment status and remediation coursework that may be required as prerequisites.</i></p> <p>NOC evaluates students for placement into either foundational or college-level courses, whichever will lead to the greatest possibility of student success. Academic placement is determined either by A.C.T. test scores or by Accuplacer test scores. These tests are administered in the Testing Center at NOC. Based upon the scores, students may be required to take one or more courses for remediation in English, Math, or Reading, either prior to or concurrent with credit courses. See the NOC testing web page by clicking on the following link: ACT   Northern Oklahoma College (<a href="http://www.noc.edu/act">http://www.noc.edu/act</a>) for placement guidelines.</p>	<p>The Certificate in Administration and Management of Child Care Programs has been developed to prepare a person to work in the childcare field by completing hours required for the Oklahoma Director's Certificate (ODC). As an embedded certificate within the Associate Degree in Child Development, the program provides the understanding of the emotional, cognitive, physical, &amp; social development of infants through pre-school age, preparing students in the design and implementation of developmentally appropriate curriculum, as well as communication, teaching, and guidance.</p> <p>A CDA Certificate must be submitted to the Registrar in order to receive six hours of college credit (CD 1023 and CD 1053) from NOC within the CD program requirements. The CDA Certificate, the Certificate of Mastery, and the Certificate of Administration and Management of Child Care Programs can be acquired prior to obtaining the Associate degree or as one obtains the Associate degree.</p> <p><b>Career Opportunities</b> Child Care Center Director Child Care Center Master Teacher Headstart Staff Public School Teacher's Aide</p>
