*This is a suggested sequence timeline only. A student may require more than four semesters to complete an Associate in Applied Science degree.*

*These program courses are typically offered only once a year. See course descriptions for fall or spring designations and plan accordingly.*

The Business Management-Entrepreneurship Option prepares the graduate with skills to create innovative ventures, recognize opportunities, evaluate alternative courses of action, and formulate a plan to successfully achieve organizational objectives.

Entrepreneurial skills can be utilized in business development and within existing organizations to effect changes necessary to the success and survival of the organization.

The technical occupational specialty areas equip students with current technological skills in their respective field, while the business core requirements provide the essential foundation in entrepreneurial skills, general business accounting and management.

This degree is a program whereby students take their general education courses and business courses from Northern Oklahoma College and may use their technical occupational specialty coursework at an area technology center or from prior learning assessment to satisfy elective credits.

The Business Division and this degree program are accredited by the Accreditation Council for Business Schools and Programs (ACBSP). Outstanding Business students are invited to join Kappa Beta Delta, the business honor society recognized by ACBSP.

**Career Opportunities**
- Basic Entrepreneurial Activities
- Entry-Level Management
- This degree program is designed for students to develop entrepreneurial skills necessary to the success and survival of existing organizations to effect changes in business development and within organizations.
- Entrepreneurial skills can be utilized in business development and within existing organizations to effect changes necessary to the success and survival of the organization.
- The technical occupational specialty areas equip students with current technological skills in their respective field, while the business core requirements provide the essential foundation in entrepreneurial skills, general business accounting and management.

NOC evaluates students for placement into either foundational or college-level courses, whichever will lead to the greatest possibility of student success.

Academic placement is determined by A.C.T. test scores—primary or a residual administered in the Testing Center at NOC. Based upon the scores, students may be required to take one or more courses for remediation in English, Math, or Reading, either prior to or concurrent with credit courses. See the NOC testing web page by clicking on the following link: [http://www.noc.edu/act](http://www.noc.edu/act) for placement guidelines.
