This suggested curriculum includes degree requirements and courses that are usually completed in the first two years of a four-year curriculum.

Consult with the university or college of your choice and its catalog curriculum as you make plans on where to transfer. Be careful to select the courses that will meet all requirements for both the Associate and Baccalaureate degree programs. The Elementary Education program provides the core courses that develop the foundation for a major field of study, plus general education courses.

Note: Bachelor's degrees in elementary education in Oklahoma require 12 hours in four key areas (science, math, social sciences, and English/communications). Students may wish to take extra classes in these areas before transfer; however, courses for transfer, including the recommended program electives, are highly dependent upon the program requirements of the institution where the student will be transferring. Not all courses listed are applicable at all institutions (e.g. NWOSU recommends CPR certification replace the First Aid course).

NOC evaluates students for placement into either foundational or college-level courses, whichever will lead to the greatest possibility of student success. Academic placement is determined by A.C.T. test scores-- primary or a residual administered in the Testing Center at NOC. Based upon the scores, students may be required to take one or more courses for remediation in English, Math, or Reading, either prior to or concurrent with credit courses. See the NOC testing web page by clicking on the following link: <http://www.noc.edu/act> for placement guidelines.
