

HPER Advisory Board Meeting

10-19-2021

Members Present: Julie Baggett, Suzi Brown, Summer McClure, Brad Witherspoon

Welcome and Thanks

Topic 1: Students lack motivation and seem to be entitled. We have to learn how to motivate them in the way that they will respond.

Topic 2: We are discussing the possibility of adding another degree option like Sports Management. This would expand the courses that we offer.

Topic 3: Many students lack the ability to understand taxes and investments. It was discussed that having that in part of a class might be of help. It was then discussed that Digital and Financial Literacy discusses 401K in class.

Topic 4: It was discussed about adding a Sports and Fitness Management program. We discussed classes to add and who would be able and willing to teach the classes.

Other topics of discussion were putting the Athletic Training Practicum classes at a set time 1-2 days a week and not over a several day span. Also, it was asked if we could split field experience class into having it one semester at Enid and one semester at Tonkawa instead of only having it in the spring for both campuses.
