

Meet The Maverick Editor: Savannah Chenoweth

by Savannah Chenoweth
The Maverick Editor

My name is Savannah Chenoweth, and I am this year's editor of The Maverick.

I am a sophomore at NOC Tonkawa, and I am from Perry, Oklahoma. I chose to come to NOC to play softball and it was a great decision.

Last year, I played second base for the Mavericks and enjoyed every minute. I have played softball for 13 years, so it has become a huge part of my life. I am the Secretary for Maverick Magic, and also a member of the PLC, and FCA.

I was also a member of the newspaper last year which allowed me to be offered the position of

editor.

Music is something I really love, Taylor Swift being my favorite artist. I enjoy going to concerts, jamming out to music on car rides, and listening to my records. In my free time I also enjoy reading books and hanging out with friends and family.

I am double majoring in English and Mass Communications.

However, when I go to a university I will transition into Sports Broadcasting and possibly Marketing.

My career is something that is very important to me, I want to work a job I love and very passionate about. My dream is to be like Holly

Rowe, or go into something similar.

I would love to work for the LA Dodgers, but would be willing to work for any MLB team.

I went to my first Dodgers game last summer and it was everything I hoped it would be. I really enjoy the art of baseball and everything that is involved on the broadcasting and marketing side.

I hope to be very successful in this field and work my way up as far as I can. I am very excited to be the Editor of The Maverick and cannot wait to see what is in store for NOC this year.

Please let me know if you have story ideas for The Maverick this year. I promise to do my best to include the stories that students want to read.

Savannah Chenoweth

Students can choose class format at NOC

by Hannah Lake
The Maverick Staff Writer

When enrollment comes around and college students are looking at which classes, they want to take next semester. The most important question to ask is, on-line or in-person.

Both on-line and in-person classes have pros and cons and in a lot of semesters at Northern

Oklahoma College, a student will most likely have at least one on-line class.

On-line classes can vary between fully online or virtual. Fully on-line means that a student does not see their professor unless they go on campus during their hours or contact them by email.

Virtual or On-Line Live means that a stu-

dent goes on Zoom and the professor teaches the class that way. Both classes have a set date and time to turn in all the assignments over the week.

Students can easily forget assignments with online classes, so it is best to have a planner and

Class

plan. Also, be aware that on-line classes cost more than in-person classes.

In-person classes means that students are physically in the class on campus. They either drive or walk to your class on the day and time of the class.

The upside to these classes is that students can socialize with their peers and instructors on a more regular basis. These classes are also less

expensive than on-line classes. The downside is that for most classes' attendance is mandatory, so students must make sure they are on time.

For students who like to go at your own pace and are great at time management, on-line may work for them. If they like a set schedule with a date and time on-campus, that could be what they like best.

Shenandoah in concert Sept. 29

Tickets are still on sale for Grammy Award winning Shenandoah at Northern Oklahoma College Tonkawa Thursday, Sept. 29, as part of the Carl and Carolyn Renfro Spring Lectureship Series.

This tour is Shenandoah's 35th Anniversary Tour.

The event is sponsored by the Carl and Carolyn Renfro Endowed Lectureship Program and Northern Oklahoma College. The dinner will be held at the Renfro Center while the concert will be held in the Kinzer Performing Arts Center.

When country music lovers talk about the greatest groups in the genre, Shenandoah is always at the forefront of any discussion.

Fueled by Marty Raybon's distinctive vocals and the band's skilled musicianship, Shenandoah became well known for delivering such hits as "Two Dozen Roses," "Church on Cumberland Road" and "Next to You, Next to Me" as well as such achingly beautiful classics as "I Want to be Loved Like That" and the Grammy winning "Somewhere in the Vicinity of the Heart" duet with Alison Krauss.

The boys from Muscle Shoals have left a potent legacy in country music with more than 300 million streams, over 8 million combined album sales, and 13 No. 1 radio singles over the course of more than three decades.

Tickets may be purchased on a first come, first served basis for the event beginning Thursday, Aug. 25, at 9 a.m.

A reserved table with seating for eight may be purchased for \$400, which includes dinner in the Renfro Center and concert in the Kinzer Performing Arts Center with preferred lower section seating.

The menu includes Spinach & Gouda Stuffed Chicken, Roasted Corn with Peppers and Onions, Herb Roasted Potatoes, Rolls, Portobello Mushroom Vegetarian Choice), and Lemon Bars.

Individual tickets for the concert may be purchased at a cost of \$20 each. The concert begins at 7:30 p.m. The tickets are non-refundable.

Tickets may be purchased by credit card by calling 580-628-6214 or in person at the NOC Development Office, Vineyard Library-Administration Building, NOC Tonkawa.

Former Oklahoma State Regent for Higher Education Carl Renfro and the late Carolyn Renfro established the Carl and Carolyn Renfro Endowed Lectureship Program with a gift in 2006 to provide support for cultivating and enhancing the cultural and community enrichment offerings to northern Oklahoma on the Tonkawa campus and in the Ponca City area.

Cybercrime Happens Way More Than You Think!

Large-scale cyberattacks make the news, but that's just the tip of the iceberg. Cybercrime is on the rise, and the majority of attacks go unreported.

Consider the following facts:

A cyberattack every 36 seconds

The University of Maryland found that there is an average of 2,244 cyberattacks per day, which is one every 36 seconds.

43% of SMB lack a cybersecurity defense plan

The International Criminal Police Organization (Interpol) reported that small- and medium-sized businesses (SMB) are being targeted at an increased rate.

\$108 Million lost in only 6-months

The US Federal Trade Commission, in a recent 6-month period, had seen over 128,000 phone-based fraud scams that cost victims a whopping \$108 Million – that's only half a year!

Staying Safe Starts with YOU!

We often assume cybercrime only happens to someone else but hackers know the easiest way to get to your organization's information is through **YOU!**

Here are some actions to stay safe.

- Be careful what you post and share online.
- Don't reuse passwords for multiple sites.
- Follow your organization's security policies and procedures.
- If something seems suspicious, always verify that it's legitimate.

In the time it took you to read this document, there were multiple cyberattacks across the globe. Make sure you stop, look, and think before you take any sort of action.
