## Graduation Photographs

Cope Photography will take a photo of you as you march across the stage and receive your diploma cover. Please pause for a moment as you receive your cover and shake hands with the presenter. Please turn and look towards the photographer. The important point is to pause (stop) briefly. Be careful with your head as the tassel frequently flips in front of your face.

Your photo will be posted on line at the NOC website in about a week. You may download the photo and use it as you wish. This is compliments of NOC. If you wish to have a professionally printed copies, please call the studio and order with your credit card.
